Child Sexual Abuse Treatment (SAT) Program

hope horizon
MENTAL HEALTH

Providing hope to children, adults and families.

Child sexual abuse is not rare.

Research indicates that as many as 1 out of 4 girls and 1 out of 6 boys will experience some form of sexual abuse before the age of 18. However, because child sexual abuse is by its very nature secretive, many of these cases are never reported.

The effects of sexual abuse extend far beyond childhood. Sexual abuse robs children of their childhood and creates a loss of trust, feelings of guilt and self-abusive behavior. It can lead to antisocial behavior, depression, identity confusion, loss of self-esteem, and other serious emotional problems. It can also lead to difficulty with intimate relationships later in life. Early treatment can help children and families heal.

Our mission is to provide children, adults and families compassionate, culturally sensitive mental health services that nurture hope, strengths, and healthy relationships at home, school, and in the community.

Referrals

All referrals come through our main office in Tulare and are then assigned to a clinician on the Sexual Abuse Treatment team. Services can be provided in any of our offices throughout Tulare County.

We accept Medi-Cal and have grant funding to cover services for victims and family members of victims who don't have insurance. We do not take private insurance.

Call (559) 688-2043

About the Program

Since the 1980s, our **Child Sexual Abuse Treatment (SAT) Program** has helped children and families impacted by sexual abuse. With the use of individual, family and group counseling, children are given the opportunity to heal from the trauma often associated with sexual abuse.

Adults, through our **Healthy Boundaries Program**, can understand their role as caregivers of a sexually abused child, heal from their own histories of abuse, and build safety for the family moving forward.

Through our Adolescent **Sexual Responsibility Program (ASRP)**, HHMH provides treatment to minors who have engaged in inappropriate sexual behaviors.

Coverage & Cost:

We accept Tulare County Medi-Cal

Grant-funded SAT services are available to adults and children who do not have Medi-Cal.

Grant program funded by Tulare County Children's Trust Fund & United Way of Tulare County
